

Health and Safety Policy

Enviro Recycle Clean is committed to ensure a safe and healthy working environment to prevent work related injuries and ill-health. Safety is one of the core values of Enviro Recycle Clean and we strive to be a leader in safe work practises in the plastic recycling industry. In pursuit of the above Enviro Recycle Clean is committed to the following: -

- Continuously improving our management system to eliminate Hazards by and reduce health and safety risks of all stakeholders.
- To take business decisions on plant machinery and technology after considering appropriate health and safety criteria.
- Comply with all Health and Safety related Regulations.
- Integrate health, safety, and best practises in all our operational activity especially in factories and recycling units.
- Inculcate a safety culture through visible leadership and empowerment.
- Involve all stakeholders in maintaining a safe and healthy work environment through regular training and participation.
- Encourage all involved to promptly report accidents and incidents and take suitable remedial measures to prevent recurrence.
- Encourage our business associates to enhance their health and safety standards.
- Ensure two- way communication between management and employees in issues regarding health and safety at workplace.

Enviro Recycle Clean will always ensure the availability of appropriate resources to implement and communicate this policy to all stake holders at regular intervals.
